ABOUT ME

I am a computer science major at Addis Ababa University, where I am currently in my final year. As a motivated and dedicated student, I aim to apply my skills to build impactful software solutions through a continuous process of learning, feedback, and self-improvement. My commitment to going above and beyond on projects, delivering high quality work, and collaborating effectively with teammates has allowed me to take ownership of complex production applications from end to end earlier in my career than many peers. Overall, I am a motivated individual looking to further boost my career at a company where I can contribute to meaningful work.

STRENGTHS

Mobile App Development	Learning curiosity
Problem Solving	Attention to Detail
Continuous Improvement	Collaborative Work Ethic
Adaptable to Change	Creative Solution Design

LANGUAGES

Lang 1: **Flutter, React Native**

Lang 2: **Html, Css, Javascript, React, Angular**

Lang 3: **Laravel, Dotnet, Node/Express JS**

Lang 4: **Phyton, Java, C++**

Lang 5: **Git, Jira, Trello**

ACHIEVEMENTS

- Scored 621 in my UEE. I got a recognition letter and a tab from A.A Bureau of Education.
- My greatest achievement, for me, is the cafe system for the innovation ministry, which is used on a daily basis for placing, managing order and inventory, . Knowing I had played a part in solving an existing large scale problem is my greatest achievement yet.

PROJECTS

- Intersavy
- Notes-App
- Nibret-Kifel-App
- Gym_management

EXPERIENCE

| Individual work - Note taking app, Property tracking app for my local church

6 Month period
